KEY HIGHLIGHTS PERFORMANCES

CIAO TURTLE

Ciao Turtle is a singer-songwriting duo featuring Dennis Ng and Jared Chan. Instead of being defined by one clear genre, they explore a blend of genres such as funk, folk and pop in their song-writing. Their music is fuss-free, and is inspired by what they love hearing and re-invent where the songs lead them, taking their audience on an emotional journey with an open destination. They believe that music sounds different when it is played live; somehow, without you knowing, you are drawn to become part of the audience. And that's how they like it. Simple, never taken too seriously, and always to be enjoyed.
